### ZEN OF SCREAMING SEMINAR BELGIUM 2008

In the early '90s, a passionate and unrestrained movement of singers emerged from the underground that would test the extreme limits of the human voice. Heeding the call of the warriors of rock and metal for over 15 years, Melissa Cross developed a vocal training method that has since been embraced by these artists who value raw power and passion above everything in their performance. Her groundbreaking vocal technique can enhance range and increase endurance without sacrificing intensity and individuality.

Melissa Cross presents The New Breed Vocal Seminar, a unique workshop dedicated to the enlightenment of modern rock and extreme vocalists everywhere.

Melissa Cross will be assisted by special guest Angela Gossow (Arch Enemy).

What you will learn at the New Breed Vocal Seminar:

- \* How to put heat (melodic rasp) in your voice
- \* How to pitch a scream
- \* How to use fire (extreme metal screaming) without injury
- \* Proper vocal maintenance
- \* A solid understanding of the vocal mechanism
- \* How to avoid hoarseness and vocal damage
- \* Power and endurance
- \* Finding and extending your range
- \* Dealing with pitch problems
- \* Find your true voice (not someone else's)
- \* Are you ready for recording?

Personal message from Angela Gossow

Hello to my fellow vocal shredders!

Melissa and I have been talking for a while about joining forces when it comes to seminars and vocal coaching. And now its finally happening!

We are delighted to welcome you to the New Breed Vocal Seminar - a place where you will learn all about screaming, shouting and growling your guts out without tearing up those precious vocal cords you have there... It will be crazy, noisy and A LOT OF FUN!

Besides fine-tuning your desire to sound like a primal giant, you can also ask me any question that relates to touring, performing, writing lyrics and vocal lines and mastering illness and stage fright. I have had a hell of a ride the last 7 years with Arch Enemy and I have learned to tackle any possible problem a vocalist can face when 'on duty'.

Take your chance - I wanna hear you roar!  
See you in October in Belgium!

love,  
Angela
